500-999.99	20	20	20
1000-2499.99	25	25	25
2500+	30	30	30

In an effort to streamline UPS shipping rates the following UPS rates will go into effect October 1, 2013 on all accounts except dropship accounts and those accounts specifically approved for variation. Unless you have been told your company is an exception, you should assume these rates apply to your orders. This change goes into effect to standardize shipping costs, speed the steps to processing orders, help cover the high costs of packing materials, and get your orders to you in rapid form thus reducing handling the same paperwork multiple times. These rates are subject to change if the UPS charges are not covered with these posted rates.

These rates do not apply to Hawaii, Alaska or International. International pays the lower Retail table rates plus a \$15 customs form fee.

effective October 2013
